Top 10 Tips for Managing Your Budget

- 10) Tell a friend.** Correction, tell a real friend. This means someone who will hold you accountable without making you feel guilty.
- 9) Reward yourself.** Everyone likes a pat on the back from time-to-time. Do something special for yourself if you stay on your budget. Looking forward to something makes the task of budgeting easier. Think experience vs. stuff.
- 8) Let go.** No more guilt. Stop being so hard on yourself! We've all made mistakes. Get over it, move on and forward.
- 7) Use technology.** Online bill pay, smart phone apps, special calculators, email alerts sent to you from your bank, all these things are your friend. Hang out often.
- 6) Check regularly.** Money needs to be monitored to grow. Check on it regularly to ensure it's doing what you instructed it to do.
- 5) Set a goal.** Goals will help you get to your destination. It makes no sense to get on a plane without knowing where you're going; the same is true that it makes no sense to create a budget without a goal in mind.
- 4) Start now.** Don't procrastinate and make things more complicated than they need to be. Start now. Write down what you spend each month, then subtract what you spend *monthly*, from what you make *monthly*. Use your bank statements to help you. That's your basic budget. It's that simple.
- 3) Open a bills account.** This is a FREE checking account (if possible), where you allocate your bill money each month. It should *not* be linked to your debit card. Separating your bill money from your spending money will help you to avoid "accidentally" spending money designated for bills.
- 2) Give and get an allowance.** After creating your budget, decide which items you can pay for with cash each month and add the amounts up, then divide the total by 4. The number you calculate is how much your new weekly allowance is. Spend it in cash or leave in on a debit card.
- 1) Automate.** By taking out the "flawed" human element, "you", you're more likely to stick to your budget. I've automated EVERYTHING: payments, bills, saving, investing, even charitable donations.
